Notes:

These data are the best available to NMFS when this report was compiled. Data are supplied to NMFS by dealers and/or state agencies and may be preliminary.

If negative late entries are present on this report, they are the result of corrections made to the database.

For the week ending **29-JUL-00**, 182 dealers held a federal scup permit. Of those 182 dealers, 129 (71%) have submitted a weekly quota report for the current reporting week to the Northeast Regional Office. Because Massachusetts dealers submit weekly quota reports directly to the state, the number of dealers that reported from Massachusetts for week ending **29-JUL-00** were not included in the above percentage of dealers that reported to the Northeast Regional Office.

The following summary is updated as information is received, and may not reflect recent state actions. Readers are urged to contact the appropriate state agency for further information.
